

***LEARN ABOUT THE UPCOMING TITLE 24 CHANGES
BEFORE IT IS TOO LATE TO BUDGET PROPERLY***

These code changes are the most comprehensive energy efficiency requirements in the country. They will have a tremendous impact on your lighting / electrical budgets!

Lamps Plus-Centennial, the largest supplier of lighting for new home and multi-family construction in the Western United States, will be conducting **four free seminars** to educate purchasing and operations executives about the code changes and the early adopter credits available. The seminars will be conducted in our Lamps Plus retail stores in order to show actual lighting fixture applications and materials for the seminar were prepared by the California Energy Commission and California Building Industry Association. Representatives from the U.S. Environmental Protection Agency (EPA) ENERGY STAR® program will present information on the ENERGY STAR Advanced Lighting Package.

The seminars will be conducted by Mark Raissen, P.E., I.E.S.N.A, A.L.A. Mark is a nationally recognized lighting designer and trainer, as well as the host of the popular television show "The Lighting Chef".

All seminars will begin at 6:00 P.M.
